Cure follows Cure!

READ THE EVIDENCE. READ THE EVIDENCE.
The above invaluable Medicine has now been before the public sufficiently long to have its virtues thoroughly tested. It has been used by all classes of the community, under every possible variety of circumstances, and has every where proved itself a most powerful and efficient Cough medicine. Lung diseases of all kinds yield to its indisence, as mists pass away upon the rising of the Run. This is no fiction. We give you below, letters from persons who are now living in the state of New York, and who declare, over their own signatures, all that we could possibly desire them to say in its favor. Those who can read their statements and yet remain incredulous, must be beyond the reach of human testimony.

A LOVELY YOUNG LADY CURED OF CONSUMPTION!

II The following is from the pen of War I. Levison, Esq. the distinguished Editor of the U. S. Military and Novel Argus, under date of New York, Jan. 26, 1850. What could be more conclusive?

of New York, Jan. 36, 1800. What could be more conclusive?

'It is seldom we permit ourselves to occupy a space in these columns to speak in praise of any article in the patent medicine way; but when we see the life of a fellow-creature eaved by the use of any medicine whatever, we consider it as our right, if not a duty, to give a simple statement of facts, that others may, in like manner, be benefitted. The case which has induced us to pen this criticle was that of a young lady of our acquaintance, who by frequent exposure to the night sir contracted a cold which settled on the Lungs before its ravages could be stayed. (This occurred 2 years ago this winter.) Various remedies were used but with very little effector benefit. The cough grew worse, with copious expectoration; and the sunken eye, and pale, hollow cheek, told plainly that PULMONARY DISEASE, was delight worst on her delicate frame. The family physician was conculted, and altho' he would not admit to the young lady that she really had the CONSUMPTION, yet he would give no encouragement as to a cure. At this crisis her mother was persuaded to make use of a bottle of Dr. Rogers' Compound Syunp of Liver. WORN, TAR and CANUHALAGUA; and we are happy to state, she was perfectly cured in lease than these months by this medicine alone. Military & Naval Argus Office, No. 79 Chatham street, New York.

AFTER BEING GIVEN UP TWICE BY EMINENT PHYSICIANS!

Albany, June 9, 1849.

Messrs. A. L. Seovill 4 Co.—I herewith forward to you a Certificate of Cure effected by your Compound Syrap of Liverwort, Tar and Canchalagus. The cough and expectoration was of fourteen months standing, and had baffied the skill of several of our eminent physicians in New York, Albany, and Cooperstown. I am the person in whom the cure was effected, and as I had previously no faith in patent medicines, I have since tried it on others, and have become satisfied of its value. Mine was as GREAT a CURE as ever was performed; as I had during my sickness been given up twice by my physicians. I have now commenced my business after taking I think about eight bottles. Yours respectfully,

Pearl at. N. Y—A few days before last thristmas I was taken unwell and soon commenced bleeding freely at the Lungs. I called in a Homeopathic Physician, but his medicine did not seem to help me, I read your advertisement, and thought I would try Dr. Rogers by rap of Liverwort, Tar and Canchalagua-Before I had taken up the third bottle my bleeding lad stopped, my Cough was gone, and I'elt well as usual. My health is now good. I consider it a most excellent medicine and cordially recommend it to my friends. [This statement was made to the Proprietors Masch 12th, 1850.]

LET US REASON.

The ingredients of which Dr. Rogers' Syrup of Liverwort, Tur and Canchalagua is composed have certain specific qualities which have been elearly established by the highest medical testimony. California has given its something more valuable than gold, in the plant Canchalagua. It is the finest of vegetable tonics, and has the invaluable property of recruiting the strength, while it represes fever. Tur, as an expectrant, has no equal. It loosens and expels the mucus from the Lungs, and thus restores to them freedom of action. As an internal styptic, Liverwort has long been known; but besides arresting bleeding from the Lungs it seems to exercise a beneficial indicates ever the whole Respiratory Apparatus, Thus, then, we have in this compound, the properties of strengthening, allaying feer, arresting hemorrhapt, and conting irritation—In this combination consists the retinuale of its wonderful curses of Congle, Colds, and ineighest Consumption; for the particulars and vouchers of which see pamphlet to be had of Agents.

This is a truly wonderful remedy for Indigeation, Dyspepsia, Jaunatics, Licer Complaint. Constipation and Debility, curing after Nature's own method, by Nature's own agent, the Gastite Juice.

In Half a teaspoonful of Pream, infused in water, will digest or dissolve Five Points of Roust Beef in about 2-hours, out of the stomach. PEPSIN is the chief element, or Great Digesting Principle of the Gastrie Juice—the Solvent of the Food, the Purifying, Preserving & Stimulating Agent of the Stomach and Intestines. of the Food, the Purifying, Preserving & Simulating Agent of the Stomach and Intestines:
At is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid precisely like the natural Gastrie Julies in its Chemical powers, and furnishing a Complete and Perfect Substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsica are simoved, just as they would be by a healthy atomach. It is doing wenders for Dyspeptics, curing cases of Debility, Emaciation, Norvous Decline and Dyspepsic, Consumption, supposed to be on the verge of the grave. The scientific evidence upon which it is based as in the highest degree curious and remarkable.

Baron Mebig in his celebrated work on Animal Chemistry says: 'An Artificial Digestive, Fluid, and Indigestive of the 201, in which Various articles of food, as meat and tygs, will be actened, changed and digested, just in the same manner as they would be in the human stomach.'

Dr. Combe, in his valuable writings on the testing and the Physiciae of Food.

changed shed digested, just in the same manner as they would be in the human stomach.

Dr. Combe, in his valuable writings on the Physiology of Digestion, observes that 'a diminution of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyspepsis;' and he states that a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else, to fail, had recourse to the Gastric Juice obtained from the etomache of living animals, which proved completely successful.

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physicology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice obtained from the living human stomach and from animals, are well-khown. 'In all cases,' he says 'digestion occurred as perfectly in the artificial is in the statural digestions.'

AS A DYSPEPSIA CURER, Dr. Houghton's Pepsia has produced the most marvellous effects in curing cases of Debility, Emsciation, Nervous Decline and Dyspeptic Consumption It is impossible to give the details of cases in the limits of this advertisement, but authenticated certificates have been given of more than two hundred remarkable cures, in Philadelphia, New York and Boston alone.—
These were nearly all desperate cases, and the cures were nearly all desperate cases, and the cures
